Contents Volume 126, 1999

Special Issue:

MICROBIAL MEDIATION IN CARBONATE DIAGENESIS

Edited by G.F. CAMOIN

Editorial 1

Introduction

New approaches to studying the microbial precipitation of carbonate minerals
T.J. McGenity and B.W. Sellwood 5

Processes operating and experimental data

Ca-carbonates precipitation and limestone genesis — the microbiogeologist point of view
S. Castanier, G. Le Métayer-Levrel and J.-P. Perthuisot 9

Applications of bacterial carbonatogenesis to the protection and regeneration of limestones in buildings and historic patrimony
G. Le Métayer-Levrel, S. Castanier, G. Orial, J.-F. Loubière and J.-P. Perthuisot 25

Experimental modelling of beachrock cementation under microbial influence
U. Neumeier 35

Continental environments

Nannobacteria and the precipitation of carbonate in unusual environments
R.L. Folk 47

Bacterial shrubs, crystal shrubs, and ray-crystal shrubs: bacterial vs. abiotic precipitation
H.S. Chafetz and S.A. Guidry 57

Biological and diagenetic influence in Recent and fossil tufa deposits from Belgium
A. Janssen, R. Swennen, N. Podoor and E. Keppens 75

Calcitic radial palisadic fabric in freshwater stromatolites: diagenetic and recrystallized feature or physicochemical sinter crust?
P. Freytet and E.P. Verrecchia 97

Cyanobacterial tufa calcification in two freshwater streams: ambient environment, chemical thresholds and biological processes
M. Merz-Preiß and R. Riding 103

Microbial control on the precipitation of modern ferrihydrite and carbonate deposits from the Cézallier hydrothermal springs (Massif Central, France)
J. Casanova, F. Bodénan, P. Négrel and M. Azaroual 125

The role of sulphate-reducing bacteria and cyanobacteria in dolomite formation in distal ephemeral lakes of the Coorong region, South Australia
D.T. Wright 147
Biofilm exopolymers control microbialite formation at thermal springs discharging into the alkaline Pyramid Lake, Nevada, USA
G. Arp, V. Thiel, A. Reimer, W. Michaelis and J. Reitner 159
Initial stages of laminar calcrete formation by roots: examples from the Neogene of central Spain
A.M. Alonso-Zarza 177
Microbial origin for pedogenic micrite associated with a carbonate paleosol (Champagne, France)
C. Loisy, E.P. Verrecchia and P. Dufour 193
Bacterially mediated formation of diagenetic aragonite and native sulfur in Zechstein carbonates (Upper Permian, Central Germany)
J. Peckmann, J. Paul and V. Thiel 205

Marine environments
Bacterial mediation, red matrices diagenesis, Devonian, Montagne Noire (southern France)
A. Préat, B. Mamet, A. Bernard and D. Gillan 223
Nanometer-scale features in dolomite from Pennsylvanian rocks, Paradox Basin, Utah
J.P. Gournay, B.L. Kirkland, R.L. Folk and F.L. Lynch 243
The role of bacteria in the formation of cold seep carbonates: geological evidence from Monferrato (Tertiary, NW Italy)
S. Cavagna, P. Clari and L. Martire 253
Nature and environmental significance of microbialites in Quaternary reefs: the Tahiti paradox
G.F. Camoin, P. Gautret, L.F. Montaggioni and G. Cabioch 271
Occurrence and significance of microbialites in the uplifted Tasmaloum reef (SW Espiritu Santo, SW Pacific)
G. Cabioch, F.W. Taylor, T. Corrège, J. Récy, L.R. Edwards, G.S. Burr, F. Le Cornec and K.A. Banks 305
Cryptic intertidal microbialites in beachrock, Heron Island, Great Barrier Reef: implications for the origin of microcrystalline beachrock cement
G.E. Webb, J.S. Jell and J.C. Baker 317
